

Workwear

We have access to over 3,000 product lines but can source anything your business requires. We can supply anything from general workwear including polo shirts, fleeces, jackets, trousers right through to safety equipment such as hard hats, glasses, gloves and boots. We also have a full Embroidery & Print production service with modern state of the art machinery which help us provide our customers with a full range of decorated garments. We can cater for small & large orders customising all products to your exact requirements. We can advise on the best product to suit your needs and budgets, whether that is promotional polo shirts right through to high quality clothing for your team in the field.

Our team can help you decide which method of decoration is appropriate and find the most cost effective way to help you meet your budget. We make having your own customer specific branded clothing easy and cost effective.

How it works

- 1 Head office purchasing manager agrees products.
- 2 Items published in an electronic catalogue on your custom branded purchasing portal.
- 3 Log in securely to search available items to order.
- 4 Order placed online by client and submitted to their head office for approval.
- 5 Approval is granted and a PO number is added by the client which is referenced on the invoice.
- 6 Orders are prepared and despatch notification sent.
- 7 Orders are delivered within 48hrs via trusted couriers.
- 8 Invoices auto-emailed to client and stored securely.
- 9 A full reporting suite is available on the portal 24/7 to review budgets and spend by site.

Here to help

Whether you are a smaller start up business or a large corporation, we will help in supplying quality and affordable products. Our wide client base covers all types of businesses including construction, facilities, schools, universities, leisure centres, and local authorities.
